

SEASIDE

Years 1&2 Summer 2017

Areas of Learning

As Historians we will be finding out what holidays were like in the past. We will be looking at what the seaside was like 100 years ago and what made it such a popular place to go. We will be using photographs to help us find clues along the way.

As Geographers we will be investigating places. This will involve looking into the key features of our local area and the seaside, and deciding how they are similar and different.

As Scientists we will be learning about the variety of creatures found at the seashore. Later in the term, we will also be learning about the weather in each season, and looking at how plants grow.

As Computer Programmers we will be researching weather forecasts and creating a seaside storybook using Microsoft Office.

As Designers and Technologists we will be designing and making decorative puppet theatres out of cardboard boxes, complete with moving curtains. We will then be making the puppets for a puppet show.

As Artists we will be using different media to make a 3D seaside collage. We will also be using seaside objects to create prints.

As Musicians we will be composing a percussion piece for "We're Going on a Bear Hunt".

As Dancers we will learn to create simple movement sequences to show weather and seasons.

As games players we will be practising out teamwork and hand-eye coordination skills by taking part in some tradition beach games such as volleyball, Frisbee and beach bowling.

ENVIRONMENT

As **environmentalists** we will be learning about how plants grow and why they are important to us.

We will also learning about keeping our beaches tidy and taking our rubbish home.

GLOBAL & LOCAL COMMUNITY

In our awareness of our **global and local communities** we will be looking at how we can recognise the geographical features of our school.

We will also be thinking about the places that our class have been to on holiday.

SPIRITUAL & MORAL DEVELOPMENT

As **spiritually & morally aware learners** we will identify the relationships in our lives.

We will think about the feelings that we might experience within different relationships, and talk about how we deal with these feelings.

CREATIVE ENDEAVOUR

As **learners with creative endeavour**, we will be creating our own puppet show to perform to the class.

We will also be creating a collaborative seaside collage.
