

Times Tables Rockstars – Introduction and User Guide for Years 2 and 3

Welcome to using Times Tables (TT) Rockstars. Are you ready to rock!

We are pleased to announce that the school is widening its use of a maths programme called TT Rockstars to pupils in Years 2 and 3. Times tables are the basics of maths. If you know the basics and can recall them quickly, then your child will find the rest much easier. Pupils in Year 4 have been using this programme for the last few months, so we have seen firsthand the benefits of using TT Rockstars and their enjoyment playing times tables games.

Before you log on for the first time please watch the launch video for TT Rockstars which can be accessed via this YouTube link <https://www.youtube.com/watch?v=p72cgbzdJBE>

As part of this introduction process you should have received an email from the school with an attachment giving the TT Rockstars username and password for your child. TT Rockstars is easily accessible using a computer or laptop, or through a free downloadable app for a mobile phone or tablet.

Please follow these steps with your child to login to the Times Tables Rockstars website.

Step 1:

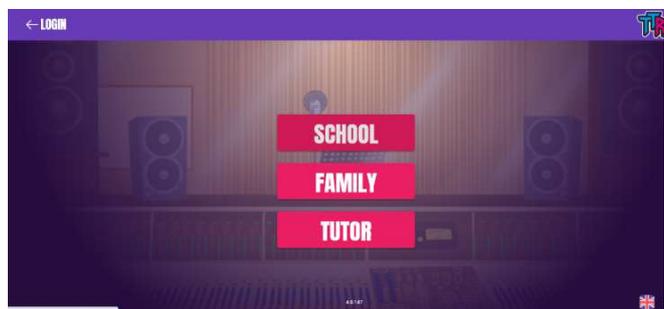

Click on Times Tables Rockstars link <https://play.ttrockstars.com/>

Or you can download the app for free by clicking here <https://ttrockstars.com/page/mobile/app/>

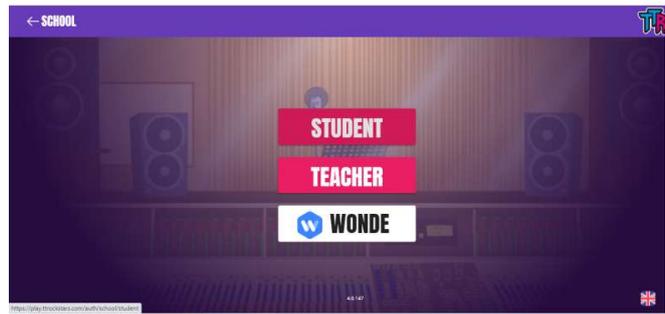

Step 2:

Select **school** option

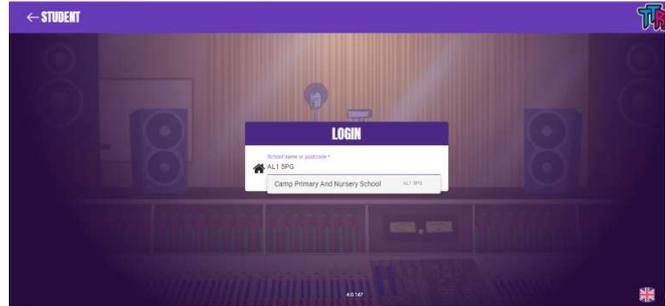

Step 3:

Select **Student** option

Step 4:

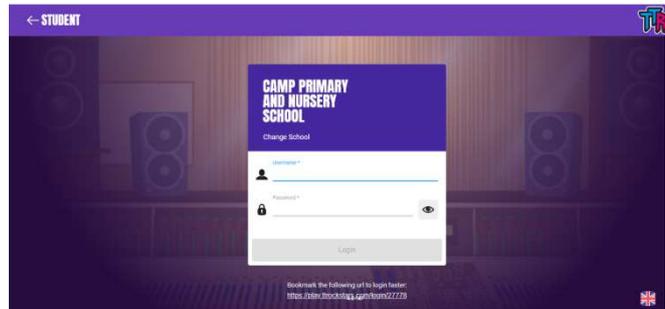

Enter the **postcode** for Camp School (AL1 5PG) and then **select** Camp Primary School and Nursery option when it appears on the screen.

Step 5:

Enter the unique **username** and **password** for your child that you should have received from the school by email.

If you have not been given or have forgotten the username and password for your child then please contact remotelearning@camp.herts.sch.uk.

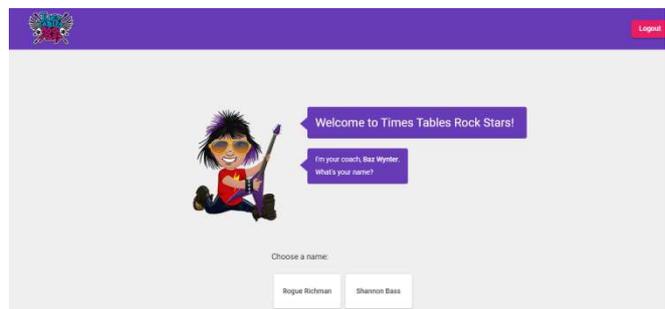

You may have to enter the username and password a second time when you login for the very first time.

Step 6:

You will then be given the option to choose your Rock Star name.

You can generate more names if you do not like any of the names in the list provided.

Step 7:

To then start practising your times tables please select the **Garage option**. It may appear as Gig when you first log on to TT Rockstars.

Each week in the **Garage** and **Arena** player options you will be able to practise **only** the times tables that your teacher has set you.

These times tables games help pupils to practise both multiplication and division activities. For example:

Multiplication (times table)

- $3 \times 4 = 12$
- $4 \times 3 = 12$

Division (the inverse or opposite)

- $12 \div 3 = 4$
- $12 \div 4 = 3$

Step 8:

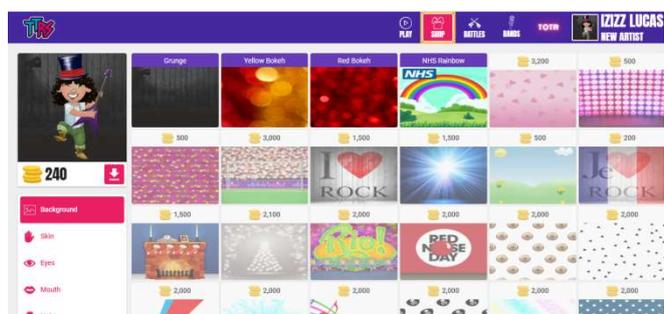

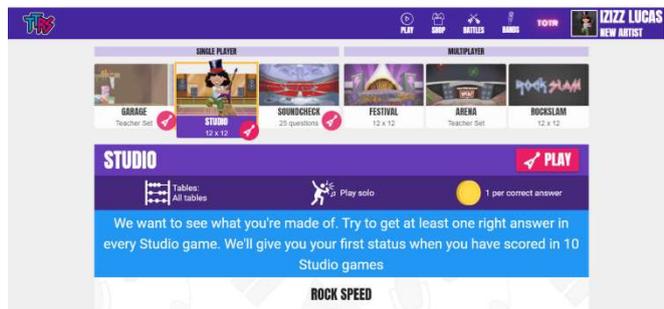

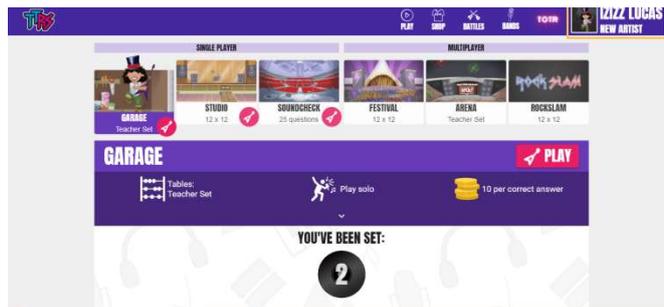

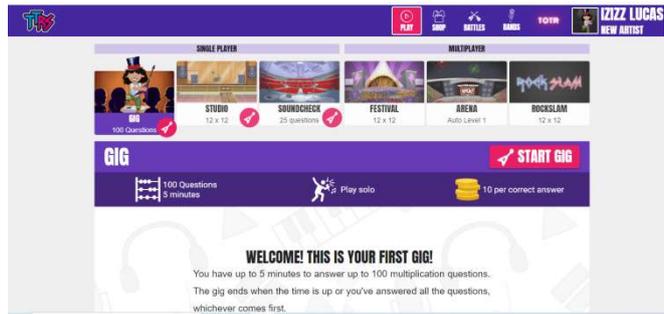

The other **game options** under play include:

- Studio
- Soundcheck
- Festival
- Rockslam.

You are welcome to try these other game options but they will include **all** of the times tables.

Step 9:

The more that you practise your times tables, then the more coins you will earn, which means you can visit the **shop** to change your appearance, outfit, equipment and much more for your Avatar.

Please aim to practice for a few minutes 4 or more times a week. That will help you get really fast and accurate. Good luck and have fun.
