Notes from Parent Forum meeting 24.11.23

Parents speak	SLT: Rachel Rowe & Mary Nethersole
School Dinners Would it be possible to only offer fruit and yogurts some days rather than cake/biscuit every day?	We explained that our lunches are provided by Herts catering. The cakes/biscuits do have a lower sugar content than shop bought biscuits. Fruit and yogurts are offered daily. Herts catering say that they "proactively reduce sugar throughout our menus and hold the Sugar wise Platinum accreditation in our Primary Schools"
After school club snack What does it include? Would it be possible to add some healthy snacks in? Is protein included in their snacks?	After school club report that the snack offers a variety of fruit and vegetables every day. These are usually offered a little later in the session after the bread and crackers. After school club have agreed to review their snack offerings.
More notice for trips in order to be able to offer volunteer support around a work schedule	Noted. We will try to get information out sooner regarding trips, although it isn't always possible to know whether or not parent volunteers will be needed until closer to the time of the event.
Request for both parents to be sent information from school e.g. emails, not just the priority contact. Where parents have shared care this is already happening?	The school's email system is set to send to the contact on the system who is recorded as 'priority 1'. This is set by parents when they complete their admissions forms with the school.
	School development plan: We shared our school priority areas and outcome targets

Final discussion

We decided that the notes from each parent forum would be posted on the school website for other parents to access. We would include the names of the parents who attended who would then be available for questions and queries.
